### Iran economic opportunities

Industrial development is one of the most important strategic plans of Iran while there are so many massive industrial projects in different phases, all in a high growth rate during the recent years in Iran.

Iran market is potentially vast meanwhile Iran is located in an important and strategic part of Middle East as the most amount of energy and various material resources are available in. Participating in Iran exhibitions in addition to doing business with Iran market, helps to reach the neighbors market by good relationships available.

Investment in Iran has the special opportunities and facilities while there are several important projects such as manufacturing of Iron, Aluminum, Copper, Zinc and Etc., also the continues development of some industries such as automotive, increases the business & cooperation of related industries like foundry, molding and auto part manufacturers

Due to be held on 29 Nov. - 02 Dec. 2012, IRAN METAFO has been the most important annual metallurgy event in the Middle East for the last 11 years and about 230 companies are expected to participate in the fair this year.

Iran is among the top big steelmaker countries in Middle East and in 2012, the investment & development in mining field has reached to more than 5000 active mining units while there is about 120 percent growth in mining capacity.

IRAN METAFO is annually held from 2011 and consists of 5 great events in the field of metallurgy industry including:

- IRAN FOUNDEX
- IRAN STEELEX
- IRAN ALUMEX
- IRAN PIPEX
- IRAN MINEX

166 companies from 8 countries and 5 national group participants, including significant Iranian producer and international brands from Italy, France, England, Germany, Norway, Taiwan, India, Turkey and Iran had participated and exhibited their products in 2011 exhibition and about 20,000 specialist, trader, manufacturer, wholesaler, retailer and public visitors visited the fair.

There are so many great private and governmental manufacturers such as Imidro, Mobarake, Zobahan, Iralco, Golgohar & Etc., in different metallurgy related product categories, all participated in 2011 Iran Metafo and also will participate in 2012 Iran Metafo exhibition to expand the international business in this industry.

## Product Categories

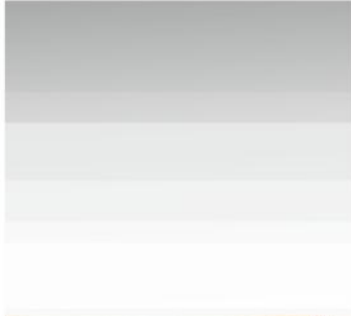

- Iron and steel products and machineries
- Steel industries
- Ironwork and forge
- Non Ferrous metal casting((Al,Mg,Ti,Cu,Zn,Ni,Co,Mo,...) and its alloys)
- Alloying metals, master alloys / Charge materials for Non-ferrous metal castings
- Furnaces (Melting-Drying and heating-Reheating and heating-Rotary-Ceramic engineering materials)
- Steel (casting,production,construction,mills,...)
- Special steels
- Refractory bricks, tiles, profiles and technologies
- Sinters
- Wire
- Aluminum industries
- Cooper industries
- Metallic charge materials
- Moulding sands
- Welding and cutting industries
- Heat treatment and drying furnaces
- Industrial furnace
- Cutting industries
- Moulding sand preparation and sand reclamation
- Melting plants and equipment
- Moulding auxiliaries
- Moulding and core making equipment and plants
- Foundry plants, installation, planning, construction, engineering
- Gating and feeding
- Pattern and die making
- Compressed-air technology
- Exhaust and ventilation technology
- Environmental protection and waste removal
- Knock-out, fettling and finishing
- Surface treatment
- Surface treatment materials
- Hardening, annealing, tempering
- Special surface treatment (Polishing,Anodizing,Electroplating, Chromating,Coating,..)

- (Cold,Hot,Foil,Scin pass,Tube,...) Rolling mills
- Forging and Extrusion Moulding
- Metallurgy industries and vehicle fragments manufacturing
- Metallurgy industries and industrial fragments and systems related to powerhouses,oil - gas and petro chemistry,mines & industries
- Installation and industrial machineries and equipments
- Technical and engineering services
- Plant and equipment for processing prime, charge and raw materials
- Plant and equipment for casting and pouring of molten steel
- Plant and equipment for shaping of steel
- Miscellaneous equipment for metallurgical plants and rolling mills
- Plant and systems for shaping of non-ferrous metals
- Electrical engineering and process control technology
- Plant and systems for environmental protection and disposal, gas purification
- Safety, environmental control, waste removal and recycling
- Control systems, measuring, testing and analysis
- Materials handling, transportation storage
- Quality control
- Dust extraction systems and gas purification
- Equipment for special use
- Components, equipment and other supplies
- Casting machines and pouring equipment
- Mineral Industries(Graphite electrodes,Grey cast iron,Silica sand, Pig iron,alloys,clays,...)
- Powders
- Laboratory test equipment & Laboratory services
- Chemical additives and industrial resins
- Filters and filter materials
- Transportation and storage
- Trade and logistics
- Training and education
- Services,Consultancy,Financing,Associations and reasearch
- Quenching and Tempering
- Pipe and profile
- Construction of tubes and pipes
- Others
